ENKLU

Enklu is a location-based augmented reality platform for a new form of physically-integrated art and entertainment which can be experienced anywhere in the world.

We create critically acclaimed location-based-entertainment technology for AR headsets and mobile AR with stunning visuals and captivating interactivity. Enklu provides venues with a platform for creating and operating compelling first person narratives.

COMMUNITY

Though Enklu comes loaded with an impressive standard content library, our most compelling experiences have been developed by our external community of visionary artists like Android Jones and Shuster + Moseley.

ABOUT US

EMPOWERING CREATORS - Enklu was founded in 2016 by games industry and web veterans who set out to prove that augmented reality content could express the best in quality, accessibility, and engagement.

Our mission is to empower storytellers to blur the lines between physical and digital reality with inclusive technology.
